## Retention of Undergraduate Students Fall 2007 to Spring 2008

## Executive Summary

This report tracks the enrollment patterns of undergraduate students enrolled in the Fall 2007 term. Using the Banner system, students were classified as enrolled, withdrawn, or graduated for Winter 2007 and Spring 2008. Those classified as graduated received their degrees in Fall 2007 or Winter 2007. The tables that follow look at four different (but overlapping) cohorts of students: all undergraduates, new freshmen, new freshmen who were provisionally admitted, and new transfer students.

Of the 456 new freshmen enrolled in Fall 2007:
62 (13.6\%) did not return for Spring 2008
394 (86.4\%) reenrolled for Spring 2008
The retention rate for new freshmen was $86.4 \%$. See Section 2, page 9 for more details.
Of the 48 new provisionally admitted students in Fall 2007:
11 (22.9\%) did not return for Spring 2008
37 (77.1\%) reenrolled for Spring 2008
The retention rate for new provisionally admitted students was $77.1 \%$. See Section 3, page 14 for more details.

Of the 273 new transfer students in Fall 2007:
68 (24.9\%) did not return for Spring 2008
205 (75.1\%) reenrolled for Spring 2008
The retention rate for new transfers was $75.1 \%$. See Section 4, page 19, for more details.
The four sections of this report (below) focus on the four cohorts listed above. Retention patterns for each cohort are displayed by gender, ethnicity, minority status, citizenship, test score ranges, classification, high school quartiles, residency (on- or off-campus and county), and college.

Please note that in the tables that follow, "Withdrawn" does not refer to students who have gone through an official withdrawal process with the University. It refers to students who have not graduated and who
